

Town and County.

Friday, - - - October 20, 1892.

(From Saturday's Daily.)

Mr. T. Hopkins, of San Francisco, arrived today and is stopping at the Hamlin Hotel.

Workmen are engaged in putting up a new awning around Goldman & Co.'s store.

Sheep give two crops a year, one in the fall, and one in the lambs; sometimes three, for in California and Texas they shear twice a year.

The Western farmers are beginning to save all the female calves, sending only the bulls to market. This is a step in the right direction.

Two women were arrested for fast living last night, and created quite a ripple.

We are in receipt of Signal Service Notes No. III, giving directions for forecasting frost. They must be of great service to gardeners, horticulturists, grape growers, etc., and should be in the hands of all persons engaged in the occupations named.

Maricopa is coming out with a steam barley cracker and cleaner, put up by R. E. Farrington & Co. It has a capacity of upwards of 30 tons per day and many orders are being taken. The mill stands convenient to the railroad and grain can be handled with much facility. The first run was made yesterday and everything worked to the entire satisfaction of the owners.

(From Monday's Daily.)

The Hon. Clark Churchill, of Prescott, still remains in town in attendance at a court.

Mr. Calderwood has made the purchase of a fine ranch, some ten or twelve miles below town.

The Contention consolidated mine at Tombstone, has declared a dividend of \$62,500, or 25 cents a share.

Mr. O'Neill, the court reporter of this county, arrived from Globe on Saturday evening, and will stop in Phoenix for a time.

Mr. S. M. Huston, of the firm of S. M. Huston & Co., directors of this place, returned from a trip to Tucson on Sunday morning.

The Independents have begun the publication of a paper called the "Phoenix"—slinking. It is hoped that it will not be all that its name implies, and if it is to serve any purpose we welcome the Phoenix.

The *Mine* piles the epithets upon the *Enterprise* is somewhat and the knees of the *Enterprise* certainly weaken. *Enterprise* makes a comfortable, slender, and graceful statement of Territorial records.

On October 18, late in the afternoon, a man was seen making a run against the accu- sations of the late Mr. H. H. H. who is reported as being the only inter- ferer in the administration of the late Mr. H. H. H. and Mohave. He is invited to inquiry into the acts of his administration of the San Carlos.

(From Tuesday's Daily.)

Wells, Fargo & Co. have refused to carry money for the Yulore Co. on account of risk from highway- men.

Mr. J. Drew, member of the Republican Central Committee from Maricopa is stopping in town for a time.

Mr. H. Pateman, of the Vulture mine, gave our office a friendly call this morning. He has succeeded in having the Government offer an additional \$200 for the arrest of Miller, the escaped stage robber.

Mrs. R. F. Haskell, No. 43 Boston street, Salem, Mass., writes: I have used St. Jacobs Oil on my daughter for a pain in her left side, and it proved itself a splendid physician. Every body regards it as a reliable friend.

We would call the attention of our patrons to the fine double column advertisement of Messrs. Rosenthal & Kutner, in today's issue of the *Phoenix*. They have an immense stock of new goods just arriving which were purchased by Mr. Rosenthal on his late trip to San Francisco and a stock that cannot fail to please the most fastidious.

If parties coming to the city will persist in falling into the numerous traps calling themselves by different names, and finally, after purchasing, that they are swindled, it is their own fault. Take a little trouble to see Uncle Harris' name painted on the windows of his store. Go first and get his guarantee (written), and you will find that you have bought any article for half store prices. Remember the number, 221, Bush, between Bush and Sutter.

Letter List.

Unclaimed letters in Postoffice at Phoenix, Arizona, Oct. 16, 1892: Blanchard, C. A. 2 Naves, C. H. Barnard, G. B. Patton, A. Brown, Edward. Turner, Mrs. Jessie Cusp, Francis. Woodbridge, J. TELEGRAPHIC.

San Carlos Indians.

SAN CARLOS, ARIZONA, Oct. 15.—General Crook held a very important conference with four hundred of the chiefs and head men of the Apaches at this post today. He made known, in a few unmistakable terms, the policy to govern during the time he should remain in command of the department. All Indians are to be counted daily, and none allowed away from the reservation without papers. The manufacture of liquor, the favorite liquor of the Apaches, is to be stopped. Indians found off the reservation without passes are to be treated as hostiles. In conclusion General Crook said that, while every encouragement and assistance would be given Indians willing to be peaceful and work for their own living, no mercy should be shown to those disposed to go on the war path. If any of the Indians at the council felt disposed to break out he thought best to break out now and bring the question of supremacy to a test without more delay.

Lieut. Dodd, Third Cavalry, with a detachment of Indian scouts, went out after a small body of Apaches reported off the reservation. He brought back the whole party, eleven in all, this morning.

Hung Himself.

SAN FRANCISCO, Oct. 16.—A tailor named Peter P. Calender, a native of Sweden, aged 48, committed suicide in a room in the Avenue House, by hanging. Financial trouble was the cause. The deceased was unmarried.

Yellow Fever.

BROWNSVILLE, TEXAS, Oct. 16.—There are ten light cases of fever at Ft. Brown. Reports from all other places inside the cordon show a healthy condition. The latest reports from Mier and Camargo say that the death rate keeps at ten to twelve daily. The weather is hot, with strong southeasterly wind.

PENNSACOLA, Fla., Oct. 16.—There are sixty-four new cases of yellow fever and three deaths. The three disabled physicians are on duty again. The total cases to date, 1607; deaths, 140.

TALLAHASSEE, Fla., Oct. 16.—D. A. McGinniss, of this city, Grand Master of the Odd Fellows of Florida, issues an appeal to the Odd Fellows of the United States, for contributions for the yellow fever sufferers of Pensacola.

New Route Railway.

WASHINGTON, Oct. 16.—The Post tomorrow morning will publish an interview with Col. Robert G. Ingersoll, embodying in detail the repairs made upon the hull of the Jeannette, under his supervision at the Naval Navy Yard, and stated that the work was first-class in every particular. He thought the Jeannette was as strong as it was possible to be, and that the alterations from the recommendations of the first board were an improvement, and added to strength. He believed he knew who was responsible for these directions, but did not care to state. The question was not pressed, though the impression was given that the directions were at the instance of Capt. De Lo. Winans thought the model of the Jeannette was not suited to Arctic cruising.

Mining Excursion.

LONDON, Oct. 14.—A party of ladies and gentlemen comprising the Iowa mining excursion, passed through here tonight. They will probably lay over a day in Tucson and have their paper collars washed.

Killed by Street Cars.

SAN FRANCISCO, Oct. 12.—This evening ray Palmer, a five year old son of C. M. Palmer, of this city, was run over by the Gary street cars and instantly killed.

Ohio Democratic Majority Decreasing.

CHICAGO, Oct. 12.—A Columbus special to the Journal says: Official returns now indicate that the Democratic majority in the State will not exceed 20,000. For Congressmen, the outlook is depending upon the vote in the Seventh and Twelfth Districts. Both are probably Democratic. Without these two districts the delegation stands 14 Democrats to 7 Republicans.

Race Riots in Alabama.

COLUMBUS, Oct. 12.—Information reached here of a contemplated uprising of the negroes in Lee county, Alabama. A number of families fled to this city and points near here for protection. Trustworthy negroes gave information of the intention of the negroes to burn houses and massacre the whites on Friday and Saturday. The trouble is said to have grown out of a disturbance caused by a negro shooting a white man some weeks ago. The wildest excitement prevails all over Lee county.

Held for Murder.

YUMA, Oct. 12.—The examination of Wm. Donohue, the man who murdered Mr. Furrer last Friday, took place today. He was bound over to await the action of the grand jury without bail.

A Desperate Strike.

SAN FRANCISCO, Oct. 12.—A Portland, Or., dispatch says the strike on the Northern Pacific has assumed a serious phase. Yesterday, after the rate of board had been fixed, the men demanded \$250 a day instead of \$2. This was refused by the Superintendent. All Chinamen were then driven from the works. Sup. Hal let is said to have telegraphed to Missouri for troops. This morning the leaders of the mob threatened to hang Hallet. Engineer Haon and the paymaster started to the front this morning with a large sum of money and an escort of twenty-five soldiers. While the men on construction as a rule are well disposed, there are probably two hundred ex-convicts and many fugitives from justice on the ground, and very little of a band of desperate can follow. There is good reason for fearing acts of violence.

Penitentiary Plunderers.

YUMA, Oct. 12.—The investigation of the affairs of the territorial prison adjourned last night. As far they have found gross frauds in the expenditures of the late appropriation of \$200,000. Commissioner Neahr and Secretary Alexander did not appear at the meetings, which were carried on by Commissioners Buffum and Frank and Gov. Trille. In one bill an item of 65,000 feet of lumber and Braly by the promise of reward, and Wm. H. Lewis deposited to the same effect as Nelson. Ingersoll also produced the deposition of Wm. Holmes, a juror, that Fall interviewed him seeking information as to whether any attempt had been made to corrupt any of the jurors. Ed Taylor, in the Department of Justice, in the Star Route trial deposed that Brewster Cameron in deponent's presence offered Fall \$5,000 if he could produce evidence that a majority of the jurors had been bought by the defense. Fall said that Brown, the colored juror had paid him for it and would swear to the facts that the juror Holmes was paid. There was a case against the defendants and the jury would acquit, that Cameron told him that the Attorney General wanted evidence that the defense had bribed some of the jurors which evidence would be used to prosecute the jurors, while it went out to the world that the defendants escaped by bribery, which would be almost as good as conviction. Ingersoll thinks the documents produced in the Department of Justice to bribe the jury.

From Perry, Woolworth & Co., Los Angeles, is charged, and investigation shows less than 25,000 feet were received at the prison. Other purchases show like rottenness and corruption. The investigation will be resumed in about ten days. The unearthing of this matter has been brought about by the labors of the Hon. J. W. Dorrington of this place. Governor Trille has ordered diligence to get at the bottom facts, and has displayed good judgment and ability. Most of the rascality has been traced to the secretary of the board, N. H. Alexander, and he has been removed. Mr. C. L. Stormond, of Silver District, has been appointed as his successor.

Check Raising.

NEW YORK, Oct. 14.—Another successful case of check raising has been made public, by which the American Exchange National Bank paid out \$8,500 on a draft raised from \$15.

The Jeannette Inquiry.

WASHINGTON, Oct. 14.—Lieutenant Danenhov testified before the Jeannette board of inquiry today. Witnesses described in detail the repairs made upon the hull of the Jeannette, under his supervision at the Naval Navy Yard, and stated that the work was first-class in every particular. He thought the Jeannette was as strong as it was possible to be, and that the alterations from the recommendations of the first board were an improvement, and added to strength. He believed he knew who was responsible for these directions, but did not care to state. The question was not pressed, though the impression was given that the directions were at the instance of Capt. De Lo. Winans thought the model of the Jeannette was not suited to Arctic cruising.
